

README

You can use this scripts in the numerical order specified in the filename. Please, verify or check the versions you want to install.

If you are using a virtual machine, execute the number 01. Otherwise ignore it.

Example:

```
./01_install-vmware-tools.sh  
./02_install-texlive-ubuntu-v20.04.sh  
./03_install-pandoc-2.14-ubuntu-v20.04.sh  
./04_install-pandoc-crossref-Linux-ubuntu-v20.04.sh
```
